## 1 Introduction

This document describes Cicero LMS' integration with the University Colleges service for importing patrons. The document includes from where and when the integration is used.

The target group for this document is customers and users of Cicero LMS importing patrons from University Colleges.

### 1.1 References

Reference	Titel	Link
[USM0007]	Opsætning af Cicero LMS	Contact Systematic for the document.

## 2 Import Loaners

### 2.1 Purpose with the integration

The integration allows Cicero LMS to automatically synchronize patrons from University Colleges internal systems.

The service is provided by the University Colleges.

### 2.2 Usage

Every time the scheduled task for importing loaners is triggered, the loaners are mainly received through this integration. The system administrator is responsible for configuration Cicero with information so the University College services can verify that the request to import patrons comes from Cicero.

For configuration of the service, please refer to [USM0007].

### 2.3 Error scenarios

If the service is not available then an error is logged and the operations will react to this. The import will be tried again the next scheduled time.

### 2.4 More information

For a more detailed description of the service, please contact the University Colleges.
